In these conditions, services include but are not limited to design and (mechanical) engineering, construction and calculation activities (engineering), transport, posting employees and contracting work.
- 1.2. The applicability of conditions applied by the Supplier is hereby expressly rejected. The submission of an offer means that the Supplier expressly rejects the applicability of its or any other general terms and conditions applied by it.

 1. The order form (purchase order) with appendices
 2. These purchasing conditions
 3. The confirmation of the order
- 1.6. In the event one or more provisions of the agreement are mutually inconsistent, their ranking order will be determined on the basis of the following rules: (i) the strict or more detailed specifications take precedence over the specifications that are less strict or detailed, (ii) a description takes precedence over a drawing; and (iii) a special arrangement takes precedence over a general arrangement, on the understanding that rule (i) takes precedence over rules (ii) and (iii), and rule (ii) takes precedence over rule (iii). The inconsistency will be interpreted in the Supplier's favour if the application of these rules does not lead to a solution.
- 1.7. Deviations from these purchasing conditions are only possible if the parties have agreed these expressly and in writing.
- 1.8. Provisions of these conditions and the agreement do not apply insofar as they are inconsistent with the applicable provisions of mandatory law. 25. Suspension, dissolution, termination

- 25.1. Van Halteren shall be entitled to suspend its obligations pursuant to the agreement or dissolve or terminate all or part of the agreement (hereinafter: **terminate**) by means of a written statement and without prior notice of default, if and as soon as the Supplier fails to comply, or fails to comply in time or properly, with any obligation to Van Halteren, and in case of a suspension of payment or bankruptcy on the part of the Supplier, an attachment levied against all or part of its business property or goods and cessation or liquidation of its business. In such cases, Van Halteren is only obliged to compensate to the Supplier the proportionate price for the goods and/or services demonstrably delivered, but only insofar as the goods delivered are actually useful to Van Halteren and/or Van Halteren wishes to keep the goods delivered, all of the above without prejudice to Van Halteren's right to compensation. Van Halteren reserves the right to terminate the agreement or agreements if and insofar as control over the Supplier changes as a result of but not limited to a takeover, merger, disposal, etc.
- 25.2. If and as soon as the Supplier fails to comply or fails to comply in time or properly with any obligation to Van Halteren, Van Halteren shall be entitled, in addition to the power referred to in the previous paragraph, to order the Supplier to cease all or part of its activities, to order the Supplier to vacate and leave the Van Halteren job site (or the job site of third parties where the activities are performed by the Supplier), and implement such measures, including engaging third parties, for the account and risk of the Supplier if Van Halteren deems this in the interest of the expeditious realisation of the work. In such cases, Van Halteren will inspect the deliveries and performances already made and draw up an inspection form in consultation with the Supplier, indicating the quantities delivered, their (estimated) value and an overview of the defects. The Supplier is liable for all costs and damage resulting from Van Halteren's implementation of these measures.

- 25.3. A failure to comply in time as referred to in the first paragraph of this article also exists if a delay arises in the schedules received or prescribed by Van Halteren or there is a justified expectation that in the given circumstances a delay will arise in the performance of any (partial) obligation under the agreement.
- 25.4. In the event Van Halteren or the Supplier is prevented from complying with the agreement for more than 30 days as a result of force majeure, each party will have the right to terminate the agreement by means of a written statement against payment to the Supplier of the proportionate price for goods or services already delivered, but only insofar as the goods delivered are actually useful to Van Halteren and/or Van Halteren wishes to keep the goods delivered.
- 25.5. Apart from the cases referred to above, Van Halteren shall be entitled to terminate the agreement at any time by means of a written statement against payment of the proportionate price for the goods and services that were demonstrably already delivered and if the Supplier demonstrates that it sustained a loss as a result, compensation of this damage up to a maximum of 5% of the remaining agreed price. Any claim on the part of the Supplier for additional or alternative compensation is excluded.

26. Insurance

- 26.1. In addition to the provisions of article 16.5, the Supplier will be obliged to adequately insure the goods and services to be created, sold and delivered for the benefit of Van Halteren, including taking out and maintaining (i) business liability insurance providing cover for physical injury and/or the death of employees, property damage and financial loss, (ii) professional liability insurance, (iii) motor vehicle insurance providing cover for passengers, and (iv) all other insurance the Supplier should take out pursuant to the applicable legislation and regulations. Unless expressly agreed otherwise, the Supplier will be obliged to include Van Halteren as co-insured in the insurance and it must be stipulated that co-insured parties under the insurance must be considered to be third parties towards each other.
- 26.2. In the event the agreement concerns design and/or (mechanical) structural construction and calculation activities (*engineering*), transport and/or contracting work, the Supplier will take out and maintain CAR insurance (*Construction All Risk*). Unless expressly agreed otherwise, the Supplier will be obliged to include Van Halteren as co-insured in the CAR insurance and it must be stipulated that co-insured parties under the insurance must be considered to be third parties towards each other.
- 26.3. The Supplier provides Van Halteren without delay with written evidence of the existence and contents of the aforementioned insurance. The Supplier will submit at Van Halteren's first request documents from which it is evident that the premiums due have been paid.
- 26.4. The Supplier's insurance provides that means of redress against Van Halteren is excluded.

27. Disputes and applicable law

- 27.1. All disputes that arise between the parties are settled exclusively by the competent court in Rotterdam.
- 27.2. The relationship between Van Halteren and the Supplier, including the agreement, is governed by Dutch law. The applicability of the 1980 United Nations Convention on Contracts for the International Sale of Goods (also referred to as the Vienna Sales Convention) is hereby expressly excluded.

28. Intervention in the work

- 28.1. In the event Van Halteren is of the opinion that the activities are performed in such a manner that the period determined for the realisation of the performance or part thereof is exceeded, Van Halteren will notify the Supplier thereof in writing. The same applies in the event Van Halteren considers that the activities are not/were not performed in accordance with the provisions of the agreement and/or in accordance with professional standards.
- 28.2. The Supplier is obliged to implement such measures that in the opinion of Van Halteren the delay will be made up or the aforementioned conditions and requirements will be met within a short period of time, which measures will be implemented within three working days after receipt of a notification as referred to in paragraph 1 of this article. If this does not happen, Van Halteren shall be entitled to implement all measures it deems necessary without judicial intervention. This will allow Van Halteren to take over the activities of the Supplier or third parties acting on its instructions. In such cases, the Supplier will cooperate fully with Van Halteren and those third parties.
- 28.3. All external and internal costs Van Halteren has to incur in connection with the provisions of paragraph 2 will be for the Supplier's account. It will reimburse the costs to Van Halteren immediately, including a payment for supervision and overhead costs.
- 28.4. Apart from the circumstances referred to in paragraph 1, Van Halteren shall also be entitled to intervene directly in the activities if this is necessary in view of the operating conditions, safety and/or statutory regulations. This does not release the Supplier from its liability. Van Halteren will always notify the Supplier of such intervention as soon as possible.

29. Export Control

The deliveries and services (performance of the agreement) will only be carried out under the condition that their application is in accordance with national and international export regulations and not contrary to embargoes or other sanctions imposed by the government. Each party commits that it will provide all information and documents necessary for export or dispatch to other EU Member States. Each party accepts that delays may occur as a result of export regulations or the export permit procedure, which could mean that the delivery terms and dates do not apply. If the necessary permits are not granted, or no permit can be granted for the deliveries and services, the agreement will be considered void with respect to the sections concerned.

As regards goods delivered (hardware, software, technology and/or related documents, irrespective of the manner of delivery) or services (including any form of technical assistance) that were provided by Van Halteren and by companies affiliated with it, the other party will be obliged in case of re-export to third parties in the Netherlands and abroad, to comply with all applicable national and international provisions concerning regulations pertaining to export and re-export.

30. Product liability and recalls

- 30.1. In the event a claim is submitted against Van Halteren in connection with product liability, the Supplier will be obliged to indemnify Van Halteren against such claims insofar as the damage is caused by a defective product delivered by the Supplier. In case of liability for defects, such will only apply though if the cause is attributable to the Supplier. If the cause of the damage is within the Supplier's area of responsibility, the Supplier will be obliged to demonstrate that it is not liable.
- 30.2. In the cases referred to in the previous paragraph, all costs and expenses will be for the Supplier's account, including the costs of any legal proceedings.
- 30.3. The statutory provisions apply otherwise.
- 30.4. Prior to a recall that is fully or partly attributable to a defect in a product delivered by the Supplier, Van Halteren will inform the Supplier thereof in writing and enable the Supplier in cooperation and consultation to carry out the recall as efficiently as possible, unless informing the Supplier or cooperation with the Supplier is impossible in view of the urgent nature. Insofar as the recall of products is the result of a defective product delivered by the Supplier, the costs of the recall will be for the Supplier's account.

31. Wages and Salaries Tax and National Insurance Contributions (Liability of Subcontractors) Act

In the event the Wages and Salaries Tax and National Insurance Contributions (Liability of Subcontractors) Act applies to any agreement concluded between the Supplier and Van Halteren, such will be subject to additional conditions to be determined further. In such cases, the following provisions apply in any event to the parties.

The Supplier is obliged to show the following at Van Halteren's first request:

- Valid proof of registration with the Chamber of Commerce (not older than 3 months);
- A declaration from the Tax and Customs Administration concerning income tax and national insurance contributions.

The Supplier is obliged at our first request to provide a list of the names of its employees and the employees of third parties engaged by it who will be deployed for Van Halteren within the context of the agreement, including a statement of the dates on which this will take place.

The Supplier will allow Van Halteren to inspect the wage statements at its first request.

32. Privacy

The Supplier will act in accordance with the General Data Protection Regulation (GDPR) when processing Van Halteren's personal data.

33. Conflict of interest

The Parties will neither offer each other or third parties nor ask for, accept or be promised by each other or third parties, for themselves or for any other party, any gift, reward, compensation or benefit of any kind whatsoever that can be interpreted as an unlawful practice. Such practices may be reason for full or partial dissolution of the agreement.

If it becomes clear that at the formation of the Agreement a subordinate of Van Halteren holds a paid or unpaid ancillary position at the Supplier without Van Halteren having been informed thereof before the conclusion of the Agreement, Van Halteren shall be entitled to dissolve the Agreement extrajudicially without requiring notice of default and with immediate effect without being obliged to pay any compensation.
